## PEARL KRUSH

### Featured Quilter

**Pearl Krush** has been involved in the craft, sewing and quilting industries since 1985. She has developed and invented several products for these industries over the years.

Pearl loves marketing and is always looking for What's New that can be brought into the Quilt Industry. Much of the inspiration that develops into her fun and whimsical designs comes from the gift industry as well as personal trips and the love of creating a warm and welcoming home.

She has designed and produced over 800 patterns for the quilt market. Pearl has written several crafting, embroidery and quilting books and has been featured in many of the quilting magazines. She can be seen on both the *Quilting Arts Magazine* and the *It's Sew Easy* video productions on line and on many PBS Stations. You can also find many of her designs available through Annie's and Herrschner's catalogs.

Pearl owned a quilt shop the Thimble Cottage Quilt Village for more than twenty years. The shop was recently moved to an online shop so that she has more time to design.

Over the last several years she has designed many lines of cotton fabrics that can be found on line or at quilt shops in the USA as well as many shops in Canada, Europe, Australia and New Zealand. She teaches and shows her products at the Fabrizanza Open House and International Quilt Markets each spring and fall.
